Serial No. 09/887,464

Listing of Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Claim 1 (currently amended): A local drug delivery apparatus comprising:

a medical device for implantation into a treatment site of a living organism;

a layer including a rapamycin in therapeutic dosages incorporated in a polymeric matrix and affixed to the medical device for the treatment of reactions by the living organism caused by the medical device or the implantation thereof; and

a biocompatible, water soluble powder applied to <u>an outermost</u> surface of the polymeric matrix configured to prevent the layer affixed to the medical device from separating from the medical device prior to implantation of the medical device at the treatment site.

Claim 2 (original): The local drug delivery apparatus according to Claim 1, wherein the medical device comprises an intraluminal medical device.

Claim 3 (original): The local drug delivery apparatus according to Claim 2, wherein the intraluminal medical device comprises a stent.

Claim 4 (cancelled):

Claim 5 (cancelled):

Claim 6 (cancelled):
